

SALT LAKE HERALD
SALT LAKE CITY, UTAH.
BY THE HERALD PUBLISHING CO.
Forecast for today: Rain, turning to snow, colder.
REGISTER! REGISTER!!

The Registration Office at 106 South State Street will re-open on Monday, Sept. 30th, and will remain open every day during the week from 9 a. m. to 5 p. m.
A great many voters have not yet registered and this will be the last chance.
Remember that you must appear at the office personally. Don't forget the date and place.

BRIEF AND BREEZY.

Conference this morning.
The quarterly meeting of the board of Medical Examiners will be held on Monday.
John Hogan, of Park City, was arrested last night on the charge of assault on a battery upon United States Commissioner Morris Sommer.
At 6 a. m. yesterday the thermometer registered 39 at noon, 48, and at 4 p. m. 49 the maximum temperature being 50, and the minimum 42.
Mr. and Mrs. W. O. Lee will give a banquet at their residence at 106 South State Street on Monday.
Councillman E. P. Newell returned from the east yesterday, where he has been for a month or two. He was in Rockland, Me., Boston, New York, Philadelphia and Chicago while away. He says silver is showing in favor in certain localities and that the silver bug has quite plenty.
The Chamberlain society yesterday received a telegram from Governor McIntyre of Colorado, the mayor of Denver and the chamber of commerce of that city, asking that the text of the address be read at that city. Butte also has claims, and the matter will be considered by the society at noon today.
G. W. Cropper and Butler Alfred are out from Denver in Millard county. They speak hopefully of the project which was begun last spring towards reclaiming those vast tracts of arid lands beginning at a point near Leamington and extending along the bench towards Fillmore. In the opinion of the gentlemen with the completion of the irrigation enterprises now under way, Millard county will have a population of not less than 20,000 five years hence.
Members of the Salt Lake police department are now under orders to speak to no one on their beats, except to answer directly to direct questions and to make brief replies to indirect, to talk to no one while walking, to not stop walking, to not enter any building existing when summoned, all of which is being carried out and causes the force, in the language of a Butte visitor "to be the most unsociable crowd ever met." The police do not take kindly to this system, which is not only novel, but new.

Abstracts furnished, titles insured and 5 per cent. paid on deposits by Utah Title Insurance and Trust company, 106 Main street.

COAL.
D. J. Sharp handles all kinds of coal, coke and charcoal. Office No. 72 South Main street. Telephone No. 429.

DEAL NOT YET CLOSED.

Foreign Colony for Alberta Lands
May Yet Come Over.

J. W. TAYLOR HAS RETURNED
SAYS THE PEOPLE ARE CRAZY
OVER STOCK SPECULATIONS.

Their Favorites Are Those of South African Mines—Those With Idle Capital Will Not Listen to the Presentation of Any Other Investments—Washington County the First to Make a Payment on This Year's Taxes—It Was the First to Make Final Settlement on Those of Last Year—Call for the Meeting of Irrigationists—General Business News.

Hon. John W. Taylor, one of the members of the Alberta Land and Colonization company, organized in this city some months ago for the purpose of improving and settling up a great tract of land in the Alberta country, Canada, has returned from London, where he went in company with Alonzo E. Hyde, another member of the company. These gentlemen were joined in New York on the way over by James A. Cunningham, but the latter gentleman returned to Utah some weeks in advance of either of the others. As a matter of fact, Mr. Hyde is still absent on business, connected with the affairs of the company. These gentlemen visited London for the purpose of closing up a splendid deal, which had in contemplation the settlement of a large foreign colony on the lands of the Alberta company, which are admitted to be among the most valuable for farming and stock-raising purposes on this continent. To read the negotiations have not been successfully closed up and it is not known when matters will be finally adjusted.

In response to questions put to him yesterday afternoon by a Herald reporter, Mr. Taylor stated that they found the people of England who have any little capital for investment gone perfectly crazy over the stock speculation in South African mines. They have no use for any other investment, no matter how promising it may be. Such a condition of affairs cannot continue much longer, however, in the opinion of the more conservative and thinking people of England, and it is not at all unlikely that the Alberta people may yet carry out everything originally set out in their plan of foreign campaign. Mr. Taylor was accompanied by several business associates yesterday for the first time in several months.

WASHINGTON AGAIN FIRST.

This County Makes the First Tax Payments and First Final Settlements.
Araia has Washington county made the first payment on territorial taxes for this year, Treasurer Whitehead having just received the sum of \$481 from Collector Galt. The taxes named, on the taxes of 1895. Washington was the first county to make final settlement on the taxes of 1894. This has been her record for some years.

CALL HAS BEEN ISSUED.

State Irrigators Will Get Together on the Coming Saturday.

As was forecast by The Herald would probably be the case, the meeting of the irrigators of the territory is to be held on Saturday afternoon, the place of meeting designated being the Assembly hall. Preparations are being made for an immense attendance, as on the day named the city will be thronged with people who are interested in the matter of irrigation. The State Irrigation Commission of Utah yesterday issued the formal call. It is as follows:
All citizens of Utah who are interested in irrigation are requested to meet at the Assembly hall on Saturday, Oct. 5, at 4:15 p. m.
There will be at this meeting pertinent business transacted and remarks made by prominent men, and facts given of a character that will be of lasting importance to the people of Utah.
All those representing the organizations of the State Irrigation association and those interested in horticulture, forestry or cognate subjects, are especially requested to be present.

M. H. Walker.

State Irrigation Association for Utah.

C. L. Stevenson, Secretary.

MORE CUTS IN PROSPECT.

Outside Millers Are Said to Have Become Very Restive.

Those on the inside declare that there will be more reductions recorded in flouring circles. The statement is made that some of the outside millers have about made the conclusion that they can afford to meet all cuts and go the other side one better by making even heavier reductions in the

cost price of their products. Wheat is selling rather low, and such good terms from the railroad as on all flour handed the outside dealers declare that they can make money and even sell lower than the present market prices. Just what will be done remains to be seen, but that there are changes in the air none of those acquainted with the facts in the case will deny.
For some time past there has been a great instability in the prices of mill products, every miller and every dealer having his own schedule. No more meetings are being held by the Salt Lake Millers' association, which was organized for the purpose of holding the hands of the mill producers in line. The objects of this association were never carried out and internal dissensions proved the death of the organization, as they had previously proved the demise of the smaller combines. Now every dealer and miller is going it alone and the outlook for high-priced breadstuffs is not flattering.

Paid Another Dividend.

Salt Lake stockholders of the First National Bank of Ogden yesterday received checks for the cash dividend of 10 per cent. on the capital stock, which was declared by the board of directors. They were for 3 per cent. on the capital stock of \$150,000.

Pleased With the Assessment.

Utah owners of sheep that range in the state of Wyoming are much gratified with the amount of assessment being made on their flocks by the officials of the various counties in which are their ranges. It was at first thought that there would be a great increase in valuation, and a great deal was made of the various boards of equalizations. The result of this protest is seen in a reduction below even the totals for the year 1894. The annual movement of the flocks out onto the winter ranges is now just commencing.

Rebuilding the Lines.

The commercial system of the Salt Lake & Ogden Gas and Electric Light company is being rebuilt throughout and within a short time the company expects to be able to furnish its patrons with an exceptionally good light. New dynamos of 3,000 light capacity each are being placed in the works and should be in operation very shortly. It is also anticipated that the Citizens people will commence the delivery of light within the next ten days.

Working on Spring Stock.

Superintendent Smoot, of the Provo Woolen Mills company, was in the city yesterday and stated that the factory is about commencing with full forces on the manufacture of the lines of spring goods recently ordered by California dealers. It is expected that a superior quality of goods will be turned out this season than ever before by the company.

SALT LAKE CITY BREWING CO.

To our many customers and friends who will visit the city during conference we extend a cordial invitation to call and see us. Office and brewery located at corner Tenth East and Fifth South streets.

CHICAGO, ST. LOUIS AND EAST.

You leave Ogden or Salt Lake on the evening and after breakfast the sumptuous dining-cars of the Santa Fe Route, on the third morning, you arrive in Chicago, St. Louis, in season to attend to business or connect with all fast trains for the east. Someone has said recently that the track of the Santa Fe railroad was in such perfect condition that the long distance run of the "Flyer" on the Santa Fe Central could be equalled, if not exceeded, by its magnificent trains.

GEORGE E. GILMAN, Gen'l. Agt. Salt Lake, Dept. 50 West Second South Street, Salt Lake City, Utah.

VICTOR MINING CLAIM.

Suit Against Gilsborn to Recover a Fourth Interest.

COPPER PLANT RECEIVER.

MAKES A REPORT WITH CERTAIN RECOMMENDATIONS.

In Regard to Insurance and Claims Against the Company—Foreclosure and Other Suits Entered—Long List of New Citizens Admitted—Miscellaneous Legal Notes and General Court Business.

Lewis M. Gillman, administrator of the estate of M. J. Franklin, deceased, is suing M. T. Gilsborn to recover a one-fourth interest in the Victor mining claim in the Camp Floyd district. It is alleged that in December, 1893, Gilsborn was appointed administrator of the estate of Franklin, and as such administrator returned to the court an inventory of the estate and stated therein that one-fourth of the Victor mining claim was owned by the estate and the plaintiff was appointed and it was arranged that Gilsborn should locate in his own name for the use and benefit of the estate and himself the Victor mine. Gilsborn did so, and it is alleged, development work was done at the joint cost of the parties and a half interest in the claim was conveyed to the other parties, the remaining half still standing in the name of Gilsborn.

Plaintiff therefore prays that the half interest standing in Gilsborn's name be conveyed to him for the benefit of the estate of Franklin.

Copper Plant Receiver's Report.

Receiver Mason, of the Copper Manufacturing company, reported that he had, pursuant to the directions of the court, ascertained that insurance can be placed upon the ore bins at the rate of 15 per cent. annually and upon the crusher building and contents at the rate of 2 1/2 per cent. per annum and upon the smelter building at the rate of 3 per cent. per annum. The receiver estimates that the ore bins have cost \$7,000, the crusher building \$5,000 and the machinery in the crusher building \$7,500, the blast furnace building \$10,000 and the machinery in the blast furnace building \$10,000, making an aggregate cost of \$35,000, the insurance upon which would foot up to \$525.

The receiver also reports that a claim of T. C. Stebbins in dispute with the Copper Manufacturing company, Brown & Henderson, for \$50 for legal services, and one of Joseph Farren, for \$35 for services in procuring a lease and bond upon the Hungarian mining claim, he recommends be submitted to the referee for adjudication.

The receiver also reports having collected \$14,912.50 from the Ajax Mining company upon the purchase price of the Salt mine and that there is still due \$5,996.65.

Minor Suits Entered.

The Wire Buckle Suspender company has begun suit against Henry Eisenman & Co. to recover \$238.50 on a judgment rendered in the Fourth district court of Pottawattamie county, Iowa, on December 30, 1891.

Wright Bros. & Co. are also suing the same defendants to recover \$274.10 on a judgment rendered in the supreme court of the city of Council Bluffs, Iowa, on April 21, 1891.

Frank Thompson and Joe R. Lane, executor and administrator of the will and estate of James Thompson, deceased, are suing E. S. Bishop et al. to recover \$2,000 balance alleged to be due on a promissory note.

A. H. Raleigh has begun suit against Milando Pratt et al. to collect \$700 on a promissory note secured by a mortgage.

Court Orders.

The arguments in the suit of John Featherstone vs. Emily S. Page et al. were resumed before Chief Justice Merritt. After the hearing his honor took it under advisement.

E. P. Singer vs. Salt Lake Copper Manufacturing company et al.; suit of C. R. Kimball in intervention dismissed without prejudice.

Frank E. McGurran vs. Charles E. Merriam et al.; dismissed.

Peter Peterson vs. William McQueen et al.; leave granted. A file amended complaint and ten days allowed to plead; leave granted to file cross-complaint.

In the matter of the estate of W. W. Player, deceased; continued for the term.

New Citizens.

The following were admitted to citizenship: Fred Fairbairn, Jackson Fairbairn, O. Allen, Harry Burnett, William Binnie, Patrick McAlister, William Richards, Jacob Jewell, Robert Daleglash, William Mitchell, William Howard, Christian G. Ogren, Edwin MacLean, Lars John Larson, Y. Heinrich Peterson, Owen Morgan, Joseph Bunney, Christopher Abbey, James Crawford, William S. Crawford, William D. Richards, Frederick Christiansen, Charles Dryer, Olaf P. Sandstrom, Andrew A. Lundquist, Hans P. Nordstrom, William Maddich, George Earl, Ellen Christina Anderson, John Brown, James T. Lovett, William A. Arne King, John T. Thud, John Lytle, Peter Peterson, Wilson, Thomas Taylor, Michael Martin, Dominio Morgando, Tony Roubais, James Zucca, Karl Reiss, Charles O. Johnson, Joseph Bishop, James McKinley, Peter Augustus, John C. Caine, William D. Powell, Nels Nelson, Franc Nora, Peter Gross, Alex Whistrom.

Miscellaneous Notes.

Arvey Hunter, charged before Justice Harby with stealing a wagon, was discharged on paying the costs and returning the property.

H. L. Driver, who was one of the three witnesses to the bond of Charles Chapman, charged with grand larceny, withdrew yesterday, and Mr. Chapman was hunting another bondsman.

NATURAL GAS IN SCHOOLS.

BOARD OF EDUCATION ORDERS A COMMITTEE TO INVESTIGATE.

Hansen Wants a New Building For the High School—Saldwin Says It is a Firework Scheme, But the Resolution Carries and the Matter Will Be Investigated—Other Business of the Board.

The meeting of the board of education last evening was participated in by all the members except Bywater, who was detained at home. There was nothing startling in the transactions of the body and nothing done of moment save the resolution by Hansen in relation to the erection of a High School building and a motion by Westerfield in relation to the introduction of natural gas as a fuel in the various schools.

The business transacted will be found in the following:
Reports of Committees.
On report of the committee on finance, the last statement of the treasurer of the board was declared correct and ordered filed.
Recommendations from the committee on buildings and grounds were received as follows:
That the old Nineteenth ward school building be fitted up for class rooms to accommodate pupils from the Washington and that the building be used for the work; also that room 9 in the Fremont be divided into four recitation rooms.
A sale of old desks for \$20.00 was reported and the money ordered turned into the treasury, to the credit of the furniture fund.
The Weber Coal company was given the contract for delivering coal for 30 cents per ton for pea and lump.
Miss James E. Hall was appointed janitress at the rooms recently rented of the Baptist church on Second South between Eighth and Ninth East.

The committee on teachers and school work recommended the purchase of \$70 worth of maps for the high school and supplies for the superintendent's office, which was adopted.
Miss May Cavanaugh was employed as a teacher of neuromuscular at a salary of \$85 per month; the salary of the principal of the Seventh school was fixed at \$85 per month; Miss Neta Veareys was employed as teacher in the room of the Baptist school at \$45 per month, and Miss May V. Parvay was employed at the Lowell at a salary of \$60 per month.
Various desks and chairs were ordered for the different schools upon request of the supply committee.
Appropriations aggregating \$7,621.15 were passed.
Hansen offered a resolution authorizing the building committee to investigate the cost of building a High School and report at the next meeting, which was objected to by Baldwin, who "didn't see any use going through the motions, inasmuch as the board could not build a High School at all. Westerfield didn't agree with this, because the city needs a High School. The present structure was an old fire trap.
Hansen's resolution was adopted.
Westerfield proposed locating the school buildings with natural gas and moved the committee on buildings report the probable cost.
Thomas was skittish on the expense, but Westerfield said he only wanted an investigation into the prices.
Westerfield's motion carried.
Adjusted for two weeks.
